

PROJECT

A1 Rated Homes

Clog na Leinn

Project: NIBE F730 Exhaust Air Heat Pumps, NIBE Solar PV & Unipipe Underfloor Heating
Clog na Leinn, Collinstown, Co. Westmeath

Unipipe IRL Ltd supplied and integrated NIBE renewable products and underfloor heating at Clog na Leinn, ensuring high-end, A1-rated homes with significant energy savings.

Project Overview

- Location: Clog na Leinn, Collinstown, Co. Westmeath
- Units Installed: NIBE F730 Heat Pumps, NIBE Solar PV, Unipipe Underfloor Heating

Key Features

- NIBE F730 Heat Pumps: Provides heating, hot water and ventilation using heat recovery from exhaust air
- NIBE Solar PV Systems: Generates renewable electricity
- Unipipe Underfloor Heating: Ensures even heat distribution
- Pre-Plumbed & Pre-Wired: Quick and cost-effective installation
- Compact Design: Stylish household appliances

Support & Benefits

- Training & Inspections: Provided to the installation team
- Commissioning: Balanced ventilation and commissioned systems
- Full after-sales service & support

Advantages for Residents

- Energy Efficiency: Utilises heat recovery and solar PV for efficient heating and hot water
- Financial Benefits: Reduced energy bills, with renewable electricity providing significant savings
