How to Apply

1. Go to the [DkIT webpage](#) or scan the attached QR code:
[DkIT Heat Pump Installer Programme](#)
2. Scroll to find details on the two instances of the course and course content details:
 - DkIT On-Campus Instance
 - Unipipe Course Instance
3. Click the 'Apply Now' button.
4. Create an Account with DkIT (or log in if you already have one).
5. Create a New Application and fill out the following:
 - **Year of Entry:** 2025-2026
 - **Academic Level:** Flexible & Professional (Part-Time)
 - **Applicant Status:** Choose EU/Non-EU accordingly
 - **Subject Area / Study Pathway:** Engineering, and Built Environment

- Programme: **Heat Pump Installer (UNIPIPE GROUP ONLY) SPRING INTAKE**
 - Then click 'SUBMIT'
6. **Complete each tab** of the application, clicking 'Save & Continue' to move on.
 - Be sure to **upload your qualifying documents** (certificates).
 7. **Preview** your application before submission. Any incomplete fields will be **highlighted in red**.
 8. **Submit** your application and watch your **email (including junk folder)** for confirmation from DkIT.
-

Applications & Payments

- All **applications and fees** go directly through DkIT.
- Unipipe **does not manage or approve** applications; DkIT handles offers.
- We at Unipipe **facilitate and deliver** the course content.
- Have your **qualification certificates ready** to upload.
- If you have **any questions** about the application process, reach out to me anytime. Please let me know once you've applied so I can **look out for your name** on the list that DkIT will share.

We look forward to welcoming you to the course on **April 2nd**. If you have any queries at all, feel free to get in touch.

P.S. Don't forget to check your junk mail for any DkIT communications!
